IQAC

Remarks of the IQAC

- The College Academic and Administrative Audit (Triple A) was conducted in the month of September 2021. With the permission of the Principal.
- Along with the Core Committee, an Academic and Administrative Audit Team was framed in the college having 3 members in each team. The Team would visit the allotted Department or Committee and audit the same. The teams were framed in such a design that no members of the team belonged to that committee or department so that they can have an unbiased scrutiny of the committee or department.
- From the IQAC cell a check list was issued to each team and based on that they would audit the assigned committees and departments.
- The team after auditing would give a compliance report and the same report were given to the respective team to make such preparation to clear the compliances.
- This kind of Auditing/Scrutiny was very much needed so as to see the documentation of each department and committee and assesses their level of preparation to face the NAAC Accreditation observe and suggest their lacunas wherever it was required.
- I am also confident this gave the conveners and Heads of the Department about their Strengths and lacunas.
